

IMPORTANT CLARIFICATION

On March 20th we posted a message from Fr. Anthony onto our website and Facebook page, and also sent it to our parishioner email list. Toward the end of the message, Fr. Anthony informed us of a parishioner who has contracted the coronavirus. In order to avoid confusion and misinformation, we would like to make the following clarification.

The parishioner mentioned was out of state when the virus was contracted, and has not been back to the parish since then.

This exact statement was made to the National Herald, which was included in today's article regarding our parish. Again, we stress that this information was shared (with the parishioner's knowledge), for the express purpose of clarifying to our parishioners the importance of following all the stated health guidelines. Everyone was also asked to pray for the restoration of health of said parishioner. We are happy to report that the person is doing well, and continues to improve every day.
